In reviewing the material prepared for the Director's testimony before captioned committee, it is my suggestion that the statement on the burglary of the FBI Resident Agency at Media, Pennsylvania, can be strengthened by the following addition (entire paragraph is set out with the proposed change and addition underscored):

On the morning of March 9, 1971, the FBI's Media, Pennsylvania, Resident Agency was burglarized. Over 1,000 documents were taken by unknown individuals who have characterized themselves as the "Citizens Commission to Investigate the FBI." The stolen material pertained to criminal, applicant, and security-type investigations, as well as certain instructional and training documents. The group has publicized copies of many of the stolen documents. These criminals selected material for release that presents a biased picture of the FBI; therefore, the material released by the thieves is not adequately or accurately representative of the Bureau's work. It is observed that of the 1017 documents known to be stolen, only 96 or portions thereof are known to have been made public by the thieves. An intensive investigation is continuing to identify individuals responsible. u

The above is the code name with regard to the investigation into the theft of documents from our Media, Pennsylvania, Resident Agency. On the afternoon of 6/10/71, Bishop received a phone call from one [redacted] the "Washington Post." He said that for the past week he has been, on assignment for his paper, conducting a thorough study of the Media documents released by "The Citizens Commission to Investigate the FBI," which has claimed credit for the Media burglary. He advised that as a result of his analysis, he had several questions which he wished to ask the FBI. One of these he advised concerned whether or not the FBI had any guidelines, policy statements and regulations which were followed by the FBI in conducting investigations. He was told that the FBI did have such guidelines. He then asked if it would be possible for the FBI to furnish to him copies of these and he was told that we would not do so. *u*

He then asked if the FBI, in conducting investigations in the security field, operated "independently" or was the Department of Justice aware of our investigations and the results thereof. He was advised that the FBI was a part of the Department of Justice, and that the Department was fully aware of FBI activities in the investigative field. *u*

He then stated that he would like to know what the "Security Index" is. He was advised by Bishop that the FBI would have no comment to make whatsoever on this matter, at which time he noted that he had talked to several people who had indicated to him that the "Security Index" was a list of persons compiled by the FBI who would be detained in the event of hostilities, and he also stated that former Attorney General Ramsey Clark had told him that he had never heard of the "Security Index." *u*

Bishop advised [redacted] that the FBI still would have no comment to make about this matter and that we were not making any comment

TO : DIRECTOR, FBI
ATTN: IDENTIFICATION DIVISION
LATENT FINGERPRINT SECTION

FROM : SAC, PHILADELPHIA (52-7165)

SUBJECT: MEDBURG

DATE: 6/9/71

During the course of the neighborhood investigation at Media, Pa., several logical places were located from which the perpetrators of the burglary could have observed or cased the Media Resident Agency. The second story of a building located at 10 South Avenue was found to have been vacant prior to and at the time of the burglary. One half of the second story of this building consists of office space and the remainder second story is an apartment. A building located at 110 West Front Street, which is behind the building in which the RA had been located, consists of three stories of office space and a two-story apartment at the rear. The office space has been vacant for over a year and the apartment had been vacant for approximately one month prior to the burglary. The resident agency itself was located on the second floor of the County Court Apartments or County Building located at 1-7 South Avenue. This is a four-story building with a basement and an attic. u

On dates 6/4, 6/5, 6/7, 6/8/71, agents processed the second story of 10 South Avenue and the entire building located at 110 West Front Street. Also processed was the attic and basement of the County Court Apartment Building. A thorough crime scene search was also conducted of these areas. A number of latent fingerprint lifts of unknown value were made and several items were taken for latent fingerprint processing. u

My dear Congressman:

This is to acknowledge receipt of your communication dated June 10, 1971, wherein you requested to be advised of this Bureau's policy pertaining to the interview of juveniles. u

As you were informed previously by letter dated May 18, 1971, [redacted] was advised at the beginning of the interview of the Agents' identities and that she was not a suspect in an FBI investigation. u

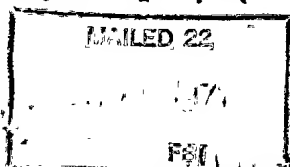

b6
b7c

Normally FBI Agents do not interview a juvenile without the presence of his parents or guardian when his young age is known prior to the interview and time is not of the essence. As you know, [redacted] age was not determined until after the interview had begun. When the Agents learned she was [redacted] the Agents suggested the interview be terminated until her parents could be present. When asked if she wanted them present during the interview, she told the Agents she did not think it was necessary. The interview was continued. u

There are numerous instances where a young person interviewed in the witness category furnishes valuable information leading to the solution of the case. As an example, Agents looking for a bank robber interviewed a young person who moments before observed a stranger meeting the robber's description exit from a car and enter a neighboring house. The youth's assistance resulted

NOTE: Representative Gude is not on the Special Correspondent's List and our relations have been generally satisfactory, pertaining mainly to constituent contacts. He asked in his June 10, 1971, letter what the Bureau's policy is pertaining to interview of juveniles. His request stems from a constituent complaint that the constituent's [REDACTED]

[REDACTED] Maryland, was interviewed on 4/27/71, by Special Agents, Silver Spring, Maryland, Resident Agency concerning Medburg case documents. Neither the constituent nor his wife was present at the interview. The constituent complained to Congressman. Gude's inquiry was received 5/12/71, and answered by letter from the Director dated 5/18/71. Gude was advised that the Agents' conduct during the interview of [REDACTED]

[REDACTED] was completely proper. She was advised of the Agents' identities and reason for contact. Upon determining her age, Agents stopped the interview and asked whether she desired her parents to be present. She replied she did not think it was necessary and the interview was then continued. u

Dear Mr. Hoover:

I appreciated your prompt reply to my communication regarding an interview by FBI agents of [redacted] of [redacted] Maryland. Her parents were disturbed that their daughter, [redacted] had been interviewed at their home when they were not present. u B. APPROX [redacted]

You reported that after learning her age, the agents offered to terminate the interview until her parents could be present, but that [redacted] was cooperative and stated she had been advised by friends that the FBI would be contacting her and her parents had asked her if she wanted them present during the interview and she had told them that she did not think it was necessary." u

[redacted] deny that this matter had been discussed with their daughter and she denies having said they had discussed it. It is not my purpose to pursue the discrepancy in their accounts of the interview. I do wish to question whether interviews of juveniles should even be conducted outside the presence of parents or another responsible adult in circumstances where the interview could be postponed without substantial delay in the investigation. I would like to know what the Bureau's policy is in such cases. u

Your assistance in this matter will be most appreciated. u

Sincerely,

Gilbert Gude

Dear Mr. Hoover:

During the evening of May 16, 1971 approximately one dozen F.B.I. agents made a forcible entry on the apartment of one of our staff, [redacted]

[redacted] It is our conviction that the warrant was illegally executed but perhaps more importantly it raises a number of grave issues with respect to the right of the American Friends Service Committee and its staff to perform wholly legal program functions involving the work and the objectives of our organization. u

On Friday, May 21, 1971 I telephoned Mr. Joseph D. Jamieson, the head of the F.B.I. in Philadelphia requesting an interview to discuss some of the issues as we saw them, receiving in return Mr. Jamieson's own explanation to the matter. I proposed that a delegation of three meet with him, to wit Mr. Henry C. Beerits, Chairman of the Board of American Friends Service Committee, Mr. Alan Hunt, General Counsel of the American Friends Service Committee and me. Mr. Jamieson indicated that he would consider the matter and inform us of his response by at least May 24th. We did receive a phone call from Mr. Jamieson today indicating that he felt no good purpose would be served in this meeting and he therefore declined to receive our delegation. u

Because of the importance we attach to this matter we therefore turn to you and request that you receive our delegation as indicated above as promptly as it is convenient for you to do so. u

Very truly yours,

My dear Senator:

I am in receipt of your communication, enclosing a letter from [redacted] from [redacted] Maryland, concerning an interview by FBI Agents of his daughter, [redacted] which was received May 27, 1971. *u*

[redacted] of [redacted] Maryland, was contacted at her residence by two FBI Agents on April 27, 1971, concerning an official investigation being conducted by this Bureau. The Agents appropriately identified themselves and advised [redacted] who appeared to be 18 to 20 years of age, that she was not a suspect in an FBI investigation but she might be able to assist us in a current investigation. During the interview, it was learned that [redacted] was [redacted] years of age, at which time the Agents suggested the interview be terminated until her parents could be present. [redacted] was cooperative and stated she had been advised by friends that the FBI would be contacting her and her parents had asked her if she wanted them present during the interview and she had told them that she did not think it was necessary. The interview was continued. *u*

On April 28, 1971, [redacted] telephonically contacted our Baltimore Office and complained about FBI Agents interviewing his daughter without his being present. [redacted] stated that he was "furious" and intended to write his Congressman, Senator, and other persons since he felt his daughter was being watched and harassed by the FBI. It was explained to [redacted] that his daughter was not being investigated or harassed by our

Dear Sir,

I want to register a strong and formal complaint against FBI tactics. I would like a reply. u

On March 28th at [redacted] there was an afternoon meeting to plan a religiously oriented demonstration. (Please see the copy of the flyer enclosed.) In our church, word of the meeting was passed to us, and my [redacted] year old daughter decided to attend. I drove her to the meeting. u

Some days after the demonstration, we were told that there were papers (copied, presented, circulated, or originals -- I don't know what) which were related to the FBI papers stolen from somewhere in Pennsylvania. We were told that people who had been at the planning meeting might be interviewed by the FBI. u

On April 27th, between 4:00 and 5:30 PM, two FBI agents did come to our house to speak to our daughter. She was alone, except for two younger siblings [redacted] for whom she was responsible.. u

One agent was a [redacted] his telephone number is [redacted] His superior is a [redacted] (?); his phone number is the same. I do not know the other agent's name. u

The men explained to my daughter who they were and why they were there. At the door, she said, "I am not supposed to let you in." (This is a family rule: our children are not allowed to let any strangers in when neither my wife nor I am present.) She also told them that she would not conjecture nor say anything to implicate herself. Then she invited them in. They entered and showed their credentials as they did so. They did not apprise her of her rights. More than once they told her that she should not believe any bad things she might have heard about FBI surveillance, investigations, and the like. u

At all times, the men were polite. As I can ascertain, the questioning went forward as I would have allowed it to, had I been present, though I would have asked for an outline of my rights and would have asked them to stop their selling of the FBI. My daughter was not aware of the fact that she could have at least made these requests. u

I called [redacted] but spoke to [redacted] He was courteous; I, being angry, was not. He contended that potential unpleasantness was cut in half because two agents were present (one chaperoning the other, I suppose). It is just as logical to contend that there is twice the danger. More realistically, the fact remains that a [redacted] year old girl was questioned alone by two trained adult men, and in this I see real potential danger. u

52-94527-2178
ENCLOSURE

Our highest loyalty is to God; we are Methodist missionaries. Though we do not like the present war policy, we are loyal Americans. We would willingly cooperate in any proper investigation conducted by proper investigators. U

We think that there is more freedom in this country than in any other. But what kind of a country is it where two adult men can come into my home when I am not present and without my knowledge? I point out to you that a Soars and Roebuck repairman knows better and could not, would not do that. U

I do not mind investigations, but I do mind what I think comes close to Gestapo methodology. I object to the agents entering, their not informing my daughter of her rights, their self-promotional talk, and most of all, entry when I was absent and not informing me of their coming. U

I am appalled. I am frightened. I request a reply. U

Very truly yours,

On 6/8/71, Chief of Police THOMAS BRUTON, Media, Pa., advised SA [] that on two occasions in the last several weeks he has dusted and lifted latent fingerprints from the transom over the door of the Selective Service Draft Board located on the second floor of the County Court Apartment Building, 1-7 South Avenue, Media, Pa. The draft board is located on the same floor as the Media Resident Agency had formerly been located. Chief BRUTON advised that he was treating both incidents as possible attempted break-ins of the draft board. BRUTON advised that his office would be forwarding to the FBI Laboratory all lifts developed and a list of suspects in the near future. BRUTON furnished SA [] with two photographs of some of the latents lifted by his department. u

Enclosed for the Bureau are two photographs furnished by Chief BRUTON to SA [] u

An Executives Conference was held on 5-27-71. Those in attendance were Messrs. Mohr, Donahoe for Sullivan, Bishop, Brennan, Callahan, Jenkins for Casper, Conrad, Dalbey, Felt, Gale, Rosen, Tavel, Walters, Beaver and Soyars. u

Pursuant to your instructions a number of items were brought to the attention of the officials in attendance: u

The importance of a thorough investigation of the MEDBURG (Break-in of the Media Resident Agency) case was emphasized. It was pointed out that SAC Roy K. Moore should have cleared with the Bureau prior to rendering any decision as to the Bureau's position with respect to a Grand Jury in Philadelphia in connection with the case. At the same time, your instructions relative to being very careful in our dealings with Assistant Attorney General Mardian were pointed out! u

The necessity for being on sound ground in requesting authority of the Attorney General for telephone surveillances was stressed. Your opinion that this is a sloppy way to do an investigation, except through the use of court approved telephone surveillances, was brought to the attention of those present, along with your instructions that we should keep down the number of such sources and that we should limit as much as possible the number of persons within the Bureau who have access to information as to the existence of such sources. u

It was made clear to all present that at any time officials of the Department are being contacted on any policy consideration which affects the Bureau, Mr. Dalbey is to attend. It was noted that this was not done in connection with a recent conference held between Supervisors of the Domestic Intelligence Division and Deputy Assistant Attorney General A. William Olson of the Internal Security Division of the Department at which time discussion ensued as to proposed changes in procedure requesting Attorney General authority for electronic surveillances. u

Re: The Executives Conference

b6
b7C

Your statement that in connection with any inquiries we receive concerning the [] matter a "No Comment" should be given was brought to the attention of the Conference. Similarly, it was pointed out that [] is to receive no information of any type from the Bureau. u

A run-down was had concerning [] and, in particular, its head officers, [] It was pointed out that instructions had been issued to our Las Vegas Office to have nothing to do with this organization. u

The Conference was told to be alert for any incoming mail requesting anything of the Bureau or any comments from the Bureau. They were told to make sure that the people and/or organizations requesting such data are not on the extreme right or extreme left. It was noted that we should not give individuals in these categories such information in order that we can avoid any basis for criticism in the future. u

The Conference was informed that after the annual leave and commitment chart is submitted there are to be no additions to it. It was emphatically pointed out that no Assistant Director is to be away at the same time as his Assistant to the Director. This applies to weekends as well as during the workweek. Furthermore, neither Brennan nor Sullivan is to take any annual leave while the EASTCON case is pending. Similarly, your instructions were issued that no one is to take leave when any vitally important matter is pending within their respective divisions. This means Assistant Directors, #1 Men, Section Chiefs, and Supervisors. Likewise, it was made crystal clear that SAC Roy K. Moore, on special at Philadelphia, and SAC Jamieson, in Philadelphia, are not to take any leave until the MEDBURG case is solved. It was also pointed out that it would appear if a case breaks in the absence of an official from headquarters he should voluntarily return to handle the matter. In this respect, your comment that leave is a privilege not a right was brought to the attention of the Conference. u

For information. u

Memorandum C. D. Brennan to Mr. Sullivan, 3/15/71, relating to captioned matter, noted Domestic Intelligence Division (DID) would follow results of investigation instant case to evaluate any prosecutive action for violation of espionage statutes. Potential for such course of action presented by fact that among items stolen during burglary were several bearing security classifications. To date, we have identified 17 stolen classified documents: 15 are Bureau originated and

Referenced memo pointed out that many stolen serials were intra-Bureau communications and as such were not stamped classified although relating to sensitive matters which would have been classified prior to dissemination outside the Bureau. Apropos of this, it is not mandatory under Title 18, Section 793, U.S. Code (the espionage statute) that documents be stamped with security classification to fall under the ambit of statute, but only that they contain information, the unauthorized possession or disclosure of which, would adversely affect national defense interest. Thus, technically, an intra-Bureau document containing such information would appear to be covered under above-cited statute. *u*

There follows a listing of classified documents identified to date as stolen from former Media Resident Agency appropriately identified as to caption, classification, DID log number, and damage assessment brief page number. Mention is also being made, where known, of fact that some of these documents have been publicized in news media. *u*
